

Refresh your Confidence™

with Spectacular Summer Savings

Purchase 2 bottles of Sculptra® and receive the 3rd bottle free! (a \$1000 savings)

Sculptra® is a long lasting treatment approved by the FDA for restoration and/or correction of the signs of facial fat loss.

Facial fat loss, or lipatrophy, is the loss of fat beneath the skin, which can result in sunken cheeks, indentations, and hollow eyes. Sculptra® is a safe, synthetic, and biocompatible material that is injected below the surface of the skin in the area of fat loss. It provides a gradual and significant increase in skin thickness, improving the appearance of folds and sunken areas.

Having Second Thoughts About That Tattoo?

For whatever reason, there comes a time when you change your mind and want to be rid of that section of inked skin. If so, you're not alone. Every day, we see patients from every walk of life that have second thoughts about their tattoos. What once seemed like a good idea just doesn't fit your new image, and you wish it would just go away. Now, we can make your wish come true. Using our advanced laser system, we can remove your tattoo safely without leaving a scar.

Cosmetic Enhancement of New England uses a specialized laser for tattoo removal - call for a FREE consultation to find out more about what this treatment can do for you.
